**Gippsland**  
New Energy  
CONFERENCE 2024

# About Us

Welcome to the Gippsland New Energy Conference, the premier gathering for Australia's regional leaders in the transition to renewable energy. Here, Government officials, Industry pioneers, and Community advocates converge to shape the future of the Gippsland Renewable Energy Zone.

Set against the backdrop of Gippsland, a region spearheading the shift from fossil fuels to sustainable energy, this year's conference relocates to Traralgon, nestled in the heart of the Latrobe Valley. Our venue, the Gippsland Performing Arts Centre Precinct, boasts state-of-the-art facilities including a 700-seat auditorium, four breakout spaces, and a spacious exhibition area at the Town Hall. Attendees can also unwind and forge connections in the inviting central courtyard, fostering collaboration and innovation.

Join us as we explore the opportunities, challenges, and innovations driving the transition to a cleaner, greener future.
